

## **Curatorial Statement**

In celebration of **Tracy Pon's** solo exhibition, "**Whisper of Healing 喃喃自癒**," *De's Art Den* is proud to showcase the remarkable journey of this emerging artist based in Hong Kong. A graduate of the *University of Arts London*, *Pon* invites us into her introspective world, where art becomes a dialogue with the self, illuminating the path to personal healing and self-discovery.

This exhibition features a carefully curated selection of *Pon's* vibrant abstract works created between 2023 and 2025, each piece reflecting her evolving artistic narrative. Through the use of acrylics, ink, and pencil, her art captures the essence of emotions and thoughts, transforming them into visual expressions that resonate deeply with the viewer. The interplay of color and form in her pieces speaks to the themes of release, stress, and memory, inviting us to engage with her artistic exploration.

*Pon's* artistic process is intimately connected to her experiences and environment. Her love for plants, especially flowers, plays a significant role in her creative inspiration, symbolizing growth, patience, and healing. The serene moments spent observing nature, such as the calming presence of egrets by the river, reinforce her belief that tranquility can be found even amidst chaos. This connection to nature is woven throughout her works, as she captures the delicate balance between emotion and expression.

"Whisper of Healing" marks a pivotal moment in *Pon's* artistic career, showcasing her transformation from uncertainty to confident self-expression. Each brushstroke reflects her journey of understanding, encouraging viewers to contemplate their own paths to healing. *Pon's* art serves as a reminder that healing is not only found within ourselves but also in the stories we share and the connections we forge with the world around us.

We invite you to immerse yourself in this compelling exhibition, where each artwork resonates with the potential for personal reflection and emotional connection. Join us in celebrating *Tracy Pon's* creative evolution and the profound dialogue her art initiates within all of us.
